The Materials Management Office provides resources in support of the South Carolina Emergency Management Division in case of a statewide and/or nationwide emergency to provide and coordinate the provision of services, equipment and supplies to support expedient operations associated with a disaster or emergency; and for the approval and acquisition of equipment and supplies not available through normal purchasing channels and ordering timeframes. Orders may also be placed by any state agency or entity for non-emergency purposes.

Contractor shall supply polyester tarps with the following minimum specifications:

- Self-Help Tarp to be used for small areas of roof damage
- Size – 20' x 25'
- Minimum Woven polyethylene 800 Denier
- Thickness – Preferred thickness is 5-6 mil. Various thickness acceptable from 5-10 mil
- UV Resistance – 80% after 200 hr per ASTM G23
- Non-corrosive grommets at corners and minimum of 3' on center on edges
- Hems folded over
- Corners reinforced
- Color – Preferred color is medium blue

Tarps must be packaged in cardboard box with 2 each, 100' lengths of 550 pound test parachute cord.

Package shall be clearly marked with the size and number of tarps

Pallets dimensions must not exceed 40" x 48", 4 way wooden pallets. Each pallet shall be stretched wrapped with a minimum of 10 layers. Materials shall be stacked so that the total height of each pallet and material does not exceed 55 inches.
